

Winners of the «Competition to receive grants from the RSF for the priority area of the RSF’s activities “Basic scientific research and exploratory scientific research, conducted by international research teams” (in cooperation with MOST, Taiwan)»

<b>RSF Project Number</b>	<b>Taiwanese PI</b>	<b>Taiwanese Institution</b>	<b>Russian PI</b>	<b>Russian Institution</b>	<b>Project Title</b>
16-43-03003	Chou Pi-Tai	National Taiwan University	Tunik, Sergey	Federal State Budgetary Educational Institution of Higher Education «Saint-Petersburg State University»	Luminescent transition metal complexes based on a novel class fluorescent ligands; synthesis, photophysics and prospective applications.
16-43-03010	Jui-Hsiang Liu	National Cheng Kung University	Emelyanenko, Alexander	Federal State Budgetary Educational Institution of Higher Education Lomonosov Moscow State University	Investigation of the structure transitions in polymer-stabilized liquid crystals induced by light irradiation and adsorption for sensor devices
16-44-03007	Liao, P.-C.	National Cheng-Kung University	Zgoda, Victor	Institute of Biomedical Chemistry	A targeted proteomic study to validate serological biomarkers in lung adenocarcinoma patients.
16-45-03007	Yu-Chen Hu	National Tsing Hua University	Parfyonova, Yelena	Federal State Budgetary Educational Institution of Higher Education Lomonosov Moscow State University	Genetically engineered stem cell sheet expressing neural factors for tissue regeneration
16-48-03006	Chui K.	Research Center for Mind, Brain, and Learning, National Chengchi University	Dobrovolsky, Dmitry	Federal State-Financed Educational Institution of Higher Education "Moscow State Pedagogical University"	Semantic Analysis of Translated Texts for Comparative Cultural Studies and Cultural Specificity in Language Learning
16-49-03012	Jie-Hong Jiang	National Taiwan University	Yevtushenko, Nina	Tomsk State University	Reliability, Security, and Trust for Systems as Services: Scalable Solutions for Efficient Analysis and Management
