<sup>1</sup> The grant of the Foundation is a gratuitous funding and is reflected in the Chart of accounts of the financial and economic activities of the organization as deferred income (gratuitous receipts). The Foundation's grant is not cash temporarily owned by the host organization.

<sup>2</sup> With the exception of studies aimed at human cloning, human genetic modification, the creation or genetic modification of a human embryo for research purposes or the production of stem cells. Research experiments involving humans, human material, animals as well as studies with a great impact on humans and their environment must obtain an approval from the ethics committee of the respective host organization, if such a committee exists.

<sup>3</sup> In the first year of the project, the change of the Russian research team leader is possible only due to significant circumstances such as death, serious illness, recognition as missing, recognition as incompetent, pregnancy and maternity leave.

research organisations (interstate and intergovernmental), located on the territory of the Russian Federation, where the projects will be implemented (hereinafter the organisation).

The NSFC grant shall be provided to the foreign research team performing basic research and applied research on the basis of organization complying with guidelines for NSFC-RSF Joint Research Groups (hereinafter the foreign organisation) on a free and non-refundable basis according to the competition results under the terms specified by the NSFC.

6. The necessary condition for the provision of a grant by the Foundation shall be the receipt by the foreign research team of a grant from the NSFC to implement the project. Funding of the project by the Foundation's grant shall be discontinued in the event of funding of the project by the NSFC grant is discontinued. The content<sup>4</sup> of the form 6 of Appendix 1 must be identical<sup>5</sup> to the "Joint Project Template" prepared by Russian and foreign research teams jointly and submitted by foreign research team to NSFC.

7. In addition to this project, the leader of a project can simultaneously lead one project funded by the Foundation and participate in one project funded by the Foundation as a research team member. The leader of a project can not be a scientist deprived<sup>6</sup> of such a right for a certain period due to his refusal to lead the project funded by the Foundation and / or due to the early termination of the project funded by the Foundation by the decision of the Foundation Board.

The leader of the project cannot be the chairman of the expert council of the Foundation, who is overseeing the competition as well as his/her deputies and panel chairs.

8. The scientist who is in any way involved in the implementation of two<sup>7</sup> or more projects funded by the Foundation is not eligible to be a member of the Russian research team in the course of the project's implementation.

A member of the research team can not be an employee who is supervising administratively the leader of the Russian research team.

The core investigator of the project cannot be a scientist who is deprived<sup>8</sup> of such a right for a certain period due to the early termination of a previously supported project of the Fund by decision of the RSF Supervisory Board.

9. The Russian team leader and Russian research team members may be employees of the organisation or other persons hired to implement the project who have employment<sup>9</sup> or civil relations<sup>10</sup> with the organisation over the duration of the practical implementation of the project.

---

<sup>4</sup> A copy of the "Joint Project Description Template" submitted by the foreign research team to NSFC, signed by the Russian team leader (with details of his surname, name and patronymic (if any)), may be used as the form 6 of Appendix 1.

<sup>5</sup> The violation of this clause shall result in the rejection of the application at any stage of processing.

<sup>6</sup> The list of reasons for the deprivation of the right to lead the project is available on the website of the Foundation [www.rscf.ru](http://www.rscf.ru) in "Decisions of the Supervisory Board" in the "Documents" section.

<sup>7</sup> Team leader can simultaneously manage one project supported by the Foundation under the joint call with foreign partners and participate in one RSF-funded project as a team member.

<sup>8</sup> The list of reasons for the deprivation of the right to lead the project is available on the website of the Foundation [www.rscf.ru](http://www.rscf.ru) in "Decisions of the Supervisory Board" in the "Documents" section.

<sup>9</sup> In accordance with Articles 91, 100 of the Labor Code of the Russian Federation (hereinafter referred to as the Labor Code of the Russian Federation), the duration of working hours is calculated based on the weekly work schedule (with the exception of (Article 104 of the Labor Code of the Russian Federation) workers employed in round-the-clock continuous work, as well as in other types of works where, according to the conditions of production (work), the established daily or weekly working time cannot be observed).

Working in flexible working hours (Article 102 of the Labor Code of the Russian Federation) must ensure that the employee works out the total number of working hours during the working day or week.

The leader of the project may not be an employee of the organization at the time of filing the application, but, in case of winning the competition, must conclude an employment contract with it. If the leader of the project is not a citizen of the Russian Federation, the organization must follow all the procedures provided for by the legislation of the Russian Federation for the employment of foreign citizens.

Labor contracts, contracts (distance labor contracts, contracts) with the leader of the project and members of the research team cannot provide for the possibility of carrying out labor activities outside the territory of the Russian

The Russian team leader must<sup>11</sup> have employment relations<sup>12</sup> with the organisation over the entire duration of the practical implementation of the project.

10. The Russian team leaders must have at least 10 different publications<sup>13</sup> in peer-reviewed Russian and foreign scientific journals indexed in the Web of Science or Scopus database<sup>14</sup> and published over the period<sup>15</sup> from January 1, 2017 to the date of the application submission.

11. The size of one grant of the Foundation shall range from 4 (four) to 7 (seven) million roubles annually<sup>16</sup>.

12. The Foundation may alter the amount of annual funding in the event of insufficiency of the Foundation's assets for funding obligations or according to a decision by the Foundation's Board based on the results of an expert evaluation of the grant application, reports submitted on the implementation of the project and the proper use of the grant of the Foundation by its recipient.

13. Organisation and foreign organisation must<sup>17</sup> provide within the application the letter (letters) of acknowledgement to supply with necessary facilities and equipment for implementation of coordinated project, on plan and terms of the activities to be implemented within the framework of the project, on the terms of use of results of intellectual activities, originated from collective creative work during the implementation of the project, on the awareness on the requirements of the Foundation to the Russian research team. The acknowledgement letter must be prepared according

Federation. Business travel of the leader of the project and the members of the research team outside the Russian Federation is possible.

<sup>10</sup> The conclusion of these agreements must be accompanied by the definition and justification of the initial (maximum) price of the agreement. The contracts must contain the estimated parameters (technical requirements) of the ordered works or services; their implementation cannot imply the use of equipment or materials, as well as the appropriate admission to work (admission to medical or pharmaceutical activities, admission to confidential or personal information), inaccessible to the performer or absent from him. The contract must be physically executable within the time frame specified therein. Based on the results of the fulfillment of the contract (stage of the contract), the organization must submit an R&D report drawn up in accordance with GOST, or another document confirming the fact of work (rendering of services).

<sup>11</sup> The right to dispose of the Foundation grant by the leader of the Russian research team arises from the amendments (if necessary) in the labor contract with the organization in accordance with the agreement between the Russian Science Foundation, leader of the Russian research team and the organization about the grant to conduct basic research and applied research (hereinafter - Agreement), or from entering into other labour agreement with the organization (fixed-term employment) in accordance with the Agreement.

<sup>12</sup> In accordance with Articles 91, 100 of the Labor Code of the Russian Federation (hereinafter referred to as the Labor Code of the Russian Federation), the duration of working hours is calculated based on the weekly work schedule (with the exception of (Article 104 of the Labor Code of the Russian Federation) workers employed in round-the-clock continuous work, as well as in other types of works where, according to the conditions of production (work), the established daily or weekly working time cannot be observed).

Working in flexible working hours (Article 102 of the Labor Code of the Russian Federation) must ensure that the employee works out the total number of working hours during the working day or week.

The Labor Code of the Russian Federation does not provide for the possibility of concluding an employment contract on remote work with a citizen living and working outside the territory of the Russian Federation.

The project manager may not be an employee of the Organization at the time of filing the application, but, in case of winning the competition, must conclude an employment contract with it. In the event that the project manager is not a citizen of the Russian Federation, the organization must fulfill all the procedures stipulated by the legislation of the Russian Federation for the employment of foreign citizens.

<sup>13</sup> In case of publication in the journal indexed in Web of Science Core Collection falling into the highest quartile (Q1) by the impact factor in JCR Science Edition, and in SJR (Q1 is determined as by <http://www.scimagojr.com/> data), such publication is counted as two publications.

<sup>14</sup> The list of publication is cited in clause 2.9 of Form 2 of Appendix 1.

<sup>15</sup> For persons who were in the period specified in this clause on maternity leave, parental leave, and also leave for employees adopting a child, relevant publications are also allowed in the period preceding January 1, 2015, and equal to the duration of such leave. The relevant information is indicated for reference in paragraph 2.9 of Form 2 of Appendix 1.

<sup>16</sup> The planned funding amount for the project is given in clause 1.10 of Form 1 of Appendix 1. A breach of the terms of this clause shall result in the rejection of the application at any stage.

<sup>17</sup> The violation of this clause shall result in the rejection of the application at any stage of processing.

to the Appendix 2 of this Competition documentation. The acknowledgement letter must be signed by designated representatives of Russian and foreign organisations.

14. The proportion of Russian research team members aged up to and including 39 years directly involved in the performance of research shall be at least 50 (fifty) percent of the total number of Russian research team members over the entire duration of the practical implementation of the project<sup>18</sup>.

Each member of the Russian research team shall receive<sup>19</sup> remuneration annually for work performed as part of the project's implementation.

The total amount of annual remuneration for a member of the Russian research team may not exceed 30 percent of the total annual remuneration for all members of the Russian research team<sup>20</sup>.

The amount of annual remuneration for Russian research team members aged up to and including 39 years may not be less than 35 percent of the total annual remuneration for all Russian research team members.

The total number of members of the Russian research team (along with the Russian team leader) may not exceed 10 persons<sup>21</sup>.

15. The team leader shall be entitled<sup>22</sup> to submit only one application<sup>23</sup> to take part in this<sup>24</sup> competition. There shall be no restriction on the number of projects funded through one organisation.

16. It shall not be permitted to submit to the Foundation a project that is similar in scope to a project<sup>25</sup> which has been concurrently submitted for the other competitions of the Foundation or other research foundations or organisations (other than those specified by this competition documentation) or which is currently being implemented using the funds of foundations or organisations, a government (municipal) objective or development programmes funded by the federal budget. If these conditions are violated, the Foundation shall discontinue funding for the project regardless of its stage of implementation with the simultaneous recovery of the funds paid to the recipient of the grant of the Foundation in the prescribed manner.

17. The projects supported as a result of the competition may not contain information that constitutes a state secret or other restricted information that is to be protected in accordance with the legislation of the Russian Federation. The funding of the project by the grant of the Foundation shall be discontinued if such information arises over the implementation of the project.

18. A mandatory condition for the provision of the grant by the Foundation shall be the undertaking of the following obligations by the international research team:

---

<sup>18</sup> The members of the research team are listed in clause 1.8 of Form1 of Appendix 1. The violation of this clause shall result in the rejection of the application at any stage of processing.

<sup>19</sup> Persons who are not tax residents of the Russian Federation can carry out research on the project without any pay (except for the team leader).

<sup>20</sup> Including guarantees established by the legislation of the Russian Federation, deductions on insurance premiums for mandatory pension insurance, for mandatory medical insurance and for mandatory social insurance in the event of temporary disability and due to maternity and for mandatory social insurance against accidents at work and occupational diseases.

<sup>21</sup> The number of research team members is given in clause 1.8 of Form 1 of Appendix 1.

<sup>22</sup> The number of other projects where he or she is declared as the member of the team but is not entitled as the leader of the project shall not be limited.

<sup>23</sup> A breach of the terms of this clause shall result in the rejection of the application at any stage.

<sup>24</sup> In the case of the engagement of the Russian research team leader in other competitions held by Foundation at the same time, as well as in the implementation of the other projects, he shall attach to the second and subsequent applications a declaration of his priorities for the implementation of the projects submitted to the Foundation. This declaration form is automatically generated in IAS, it should be printed and signed. The leader of the Russian research team must notify the leader of the foreign research team about these priorities at the stage of preparing the application.

<sup>25</sup> Projects similar to this project application with respect to the goals, objectives, targets, subjects and methods of research as well as to the results expected. Project comparison and relevant investigation is carried out by the Expert Council of the Foundation.

18.1. To make the results of their research a part of the public domain in accordance with the legislation of the Russian Federation by publishing them in Russian and foreign peer-reviewed scientific journals.

18.2. To publish<sup>26</sup> in Russian and foreign peer-reviewed scientific journals during the practical implementation of the project at least 10 publications<sup>27</sup> containing the results of research with the involvement of Russian research team members indexed in Web of Science or Scopus databases<sup>28</sup>.

18.3. To mention the financial support received from the Foundation, the NSFC, and indicate the organisation and, if necessary, the foreign organisation, through which the funding of the project is performed, in published results of any research work performed as part of a project supported by the Foundation.

18.4. To agree that the summary of the supported project and relevant project implementation reports will be published by the Foundation and NSFC, including publication on the Internet.

18.5. To agree with the use by the Foundation for non-commercial purposes of reporting materials containing the results of the project.

18.6. To agree with the use by the Foundation for non-commercial purposes of the materials submitted to the Foundation, including those containing the results of the project, as well as with the provision of these materials at the request of the authorities of the Russian Federation, development institutions.

18.7. To agree for the implementation by the Ministry of Science and Higher Education of the Russian Federation and the state financial control bodies of mandatory checks of compliance by the recipient of the grant with the terms, goals and procedure for its provision.

19. The application for the competition is submitted<sup>29</sup> in accordance with Appendix 1 to this competition documentation through the Information and analytical system of the Foundation in Internet via <https://grant.rscf.ru> (hereinafter - IAS) in accordance with the agreement<sup>30</sup> between the Foundation and the organization on the recognition of a simple electronic signature as equivalent to a handwritten signature (hereinafter referred to as the EDS agreement).

Submission of an application is possible only through the organization, with which the Foundation has signed an EDS agreement, and if there is a valid power of attorney issued by the organization to its employee, an authorized employee of the organization authorized to sign applications with a simple electronic signature.

The application for the competition must be submitted in the form of an electronic document signed through the IAS with simple electronic signatures of the core investigators, the project leader and an authorized employee of the organization, acting on the basis of a power of attorney previously submitted to the Foundation (original or duly certified copy).

---

<sup>26</sup> The number of publications planned for publication is indicated in clause 1.11 of form 1 of Appendix 1. Violation of of this clause shall result in the rejection of the application at any stage of processing.

<sup>27</sup> The publications referred to in this clause do not include publications accepted for publication before the start of the practical implementation of the project (before the conclusion of the grant agreement) and publications of the "abstract" type.

<sup>28</sup> In case of publication in the journal indexed in Web of Science Core Collection falling into the highest quartile (Q1) by the impact factor in JCR Science Edition, and in SJR (Q1 is determined as by <http://www.scimagojr.com/> data), such publication is counted as two publications.

<sup>29</sup> The application processing cycle consists of the following stages: registration of the project leader and up to three core investigators (if this has not been done earlier), filling in the information on the project leader and the core investigators in the IAS, signing the application with a simple electronic signature through IAS by the core investigators and the project leader, registration of the application in IAS by signing it with a simple electronic signature by an authorized employee of the host organization.

<sup>30</sup> An application through the organization with which the Foundation has not signed a corresponding EDS agreement, or in the event of termination of the power of attorney authorized to sign applications by a simple electronic signature of an employee of the organization, can not be submitted.

It is not possible to submit an application to the Foundation in any other way than the one mentioned above. Submission of an application to the Foundation in a different way from the abovementioned is not possible.

20. The application is submitted to the Foundation in Russian language, individual fields of the application forms are filled in English (only where it is specifically indicated).

A hard copy of the application must be submitted to the Foundation upon signing a grant agreement between the Russian Science Foundation, the project leader and the organization (hereinafter referred to as the agreement) in accordance with clause 32 of this tender documentation.

21. The application must be registered in the IAS by an authorized employee of the Organization's organization no later than 17 hours 00 minutes (Moscow time) on 16 May 2022.

22. The following applications are not eligible for the competition:

a) applications that are completed and/or submitted to the Foundation with violations of the requirements of clauses 19, 20 and 21 of this competition documentation;

b) applications that are completed and submitted to the Foundation with violations of the requirements for the content of the application to take part in the competition set forth in the announcement on the competition and the competition documentation;

c) applications whose content violates the requirements of clauses 3-5, 7<sup>31</sup>, 7-8, 10, 11, 13-18, 36, 37 of this competition documentation, including the qualification requirements set out in clause 10;

d) applications containing inconsistent information regarding applicants' qualification requirements, namely in clause 2.9 of Form 2 of Appendix 1.

23. The Foundation shall notify the Russian team leader via the IAS about the registration of the application in the form of an electronic document, about non-eligibility<sup>32</sup> status of the application (indicating the reason, if the application is not admitted to the competition), the results of the competition.

24. The Russian team leader shall be entitled to withdraw an application submitted for a competition by revoking its simple electronic signature in the IAS.

25. The Russian team leader shall be entitled to make changes to an application submitted for a competition only in the form of its withdrawal in accordance with clause 25 of this competition documentation and the submission of a new application for the competition by the required deadlines.

26. Applications eligible for the competition shall undergo review procedures in accordance with the Procedure for the expert evaluation of scientific and technical programmes and projects submitted for a competition of the Russian Science Foundation and the Criteria for the competitive selection of scientific and technical programmes and projects submitted for a competition of the Russian Science Foundation<sup>33</sup>. Applications shall be referred for an expert evaluation in accordance with the classifier codes for the branches of knowledge specified by the Russian team leaders in the applications.

27. The competition results shall be approved by the Foundation's Board by 31 October 2022.

28. The list of supported projects based on the competition results shall be published on the Foundation's website no later than 10 days after the competition results are determined.

---

<sup>31</sup> If the project leader concludes with the Foundation a new grant agreement based on the results of another competition of the Foundation or consideration of applications from persons implementing RSF-funded projects, prior to the approval of the results of this competition by the Board, leading to a non-compliance of the application with paragraph 7 of the competition documentation, the application is rejected at any stage of its consideration.

<sup>32</sup> Within 10 (ten) days after notification by the Foundation through IAS about the non-eligibility status of the application, the respective project leader has the right to submit written objections to the conclusions of the Foundation.

<sup>33</sup> The documents were published on the Internet at the address <http://rscf.ru/ru/documents>.

29. The texts of the agreements shall be sent to the leaders of Russian teams whose projects were supported by the Foundation via the IAS system within 15 business days after the approval date of the competition results, for completion and signing. The will contain the following information:

- the area of research;
- the work plan and cost estimate<sup>34</sup> of research;
- the duty of the Russian team leader to submit an annual report on the project's implementation;
- the duty of the organisation to provide the Russian research team with the necessary facility, as well as access to the available experimental base for research;
- the duty of the organisation to conclude civil or employment (fixed-term) contracts with each member of the Russian research team<sup>35</sup>;
- the duty of the organisation to pay to the members of the Russian research team remuneration for work performed as part of the project under written orders from the Russian team leader;
- the duty of the organisation to maintain separate records of expenditures of the grant of the Foundation (including the overheads expenditures) and present reports on its proper use;
- the conditions and procedure for the parties to terminate the agreement, including in the event the Foundation identifies the misuse of the grant of the Foundation;
- other rights and duties of the Foundation, the Russian team leader and organisation associated with the use of the grant of the Foundation in compliance with the provisions of this competition documentation.

30. The amount of the Foundation's financial support for the project in the agreement may be reduced compared to the amount requested by the Russian team leader in accordance with the decision of the Foundation's Board based on the recommendations from the Foundation's Expert Council.

31. The Foundation may not conclude an agreement if the head of the project, declared in the agreement is different compared to the materials of the relevant application that has undergone the expert evaluation procedure.

32. Within 15 business days after receipt via the IAS of a draft agreement signed by the Russian team leader and authorised representative of the organisation, the agreement together with a hard copy of the application and additional materials drawn up in accordance with clauses 19, 21 of this competition documentation must also be submitted or a substantiated refusal by the Russian team leader or organisation to sign the agreement must be submitted to the Foundation.

The Russian team leader shall independently choose the method for delivering the signed agreement to the Foundation that ensures that it is received by the Foundation on time. If this deadline is violated, the Russian team leader and organisation shall notify the Foundation about the impermissible delay with the signing of the agreement. If the duly signed agreement is not received by the Foundation within the following 5 business days, the relevant project shall be excluded from the list of projects supported by the Foundation, and the relevant notice will be published on the Foundation's official website.

33. The Foundation's grant may be used solely in compliance with the purposes<sup>36</sup> specified in the agreement.

34. The identification of the misuse of the grant of the Foundation shall constitute grounds for the termination of the agreement and the return of the grant of the Foundation in the manner prescribed by the agreement.

---

<sup>34</sup> For reference purpose only.

<sup>35</sup> If such contracts were not previously concluded.

<sup>36</sup> The awarded grant funds may not be expended on project costs incurred for the construction of capital facilities, for educational activities, for organization and conducting any scientific or educational events.

35. The intellectual property rights originated from collective creative work during the implementation of the project will be used by their holders on equal terms and in accordance with national legislation. The Russian Federation may use<sup>37</sup> for public needs the results of intellectual activity created by the Russian research team<sup>38</sup> on the conditions of a royalty-free, ordinary (non-exclusive) licence granted by the right holder to the government, with the payment by the government of the compensation to the respective intellectual property rights holders.

36. The organisation shall be responsible for the proper use of the Foundation's grant.

37. The organisation's overhead may not exceed 10 percent of the amount of the Foundation's grant. Payment for research work performed by the third-party organizations can not exceed 15 percent of the grant amount.

38. Announcement by the NSFC will be posted on the website <http://bic.nsf.gov.cn/Show.aspx?CI=22> (in Mandarin).

**Key words:**

**Project Summary:**

*(up to 3.000 characters)*

## **Project Description**

### **State of the art and preliminary work**

*Please explain briefly and precise the state of the art in your field in its direct relationship to your project. This description should make clear in which context you situate your own research and in what areas you intend to make unique, innovative, promising contribution. This description must be concise and understandable without referring to additional literature.*

*To illustrate and enhance your presentation you may refer to your own and other's publications. Indicate whenever you are referring to other researchers' work. Please list up to 10 important publications in your bibliography under section. Note that reviewers are not required to read any of the works you cite.*

### **Project-related publications**

*Please list your and your partners' significant publications that relate directly to the proposed project and document your preliminary work. This list should contain no more than 10 publications.*

### **Objectives**

*Please give a concise description of your project's research programme and scientific objectives. Please indicate if you anticipate results that may be relevant to fields other than science (such as science policy, technology, the economy or society).*

### **Work programme including proposed research methods**

*Please give a detailed account of the steps planned during the proposed funding period including a description of the contributions to be made by the project partners from both countries. For experimental projects, a schedule detailing all planned experiments should be provided.*

*The quality of the work programme is critical to the success of a funding proposal. The work programme should clearly state how much funding will be requested on both sides, why the funds are needed, and how they will be used, providing details on individual items where applicable.*

*Please provide a detailed description of the methods that you plan to use in the project: What methods are already available? What methods need to be developed? What assistance is needed from outside your own group/institute.*

### **Data handling**

*Improving the management and handling of research data is a priority both for national and international research organisations and for science in general. If research data or information will be systematically produced in the project, describe if and how these will be made available for*

*future reuse by other researchers. Please regard existing standards and data repositories or archives in your discipline where appropriate.*

**Added value of international cooperation**

*The cooperation among the partners involved and the expected added value of the planned cooperation should be described in detail.*

**Sample letter of acknowledgement<sup>97</sup> by Russian and Chinese organisations participating in the RSF-NSFC call for proposals of requirements for RSF's funding**

Russian Science Foundation

... (Russian organisation) ..., , and ...(Chinese organisation) ..., on the other hand, in case of receiving grant from the National Natural Science Foundation of China (NSFC) and Russian Science Foundation (RSF) are obliged to provide necessary facilities and equipment for implementation of coordinated project (NSFC\_RSFC:...) directed by (...) from the Russian team and (...) from the Chinese team for the period of the funding of the project in the above mentioned organisations.

We take note also of the fact that plan and terms of the activities, implemented within the framework of the project, as well as the distribution of the project activities between Russian and Chinese research teams will have to comply with proposals approved for grant funding.

We are notified that the results of the intellectual activities (included those originated from collective creative work) created during the implementation of the project (i.e.: own results and joint results), will have to be used by their holders in accordance with national rules. We are notified that according to the Russian legislation Russian Federation may use for public needs the results of intellectual activity originated from implementation of the project by the sole Russian team and, therefore, with no contribution of the Chinese team (i.e.: own results) on the basis of non-exclusive license provided by the rights holder to the state licensee.

We are also notified on the requirement of the Russian Science Foundation to the Russian research team concerning the number of publications, prepared during the implementation of the project, in journals indexed in Web of Science or Scopus, that may not be less than it is indicated in the proposal submitted to the Russian Science Foundation.

We are notified that Russian Science Foundation may reduce the amount of a grant, suspend or terminate the transfer of grant funds to the Russian team in the following situations:

- insufficiency of the Foundation's assets for funding
- the Foundation's Management Board comes to the above mentioned decision based on the results of audit, an expert evaluation of applications and reports submitted by Russian team
- the Russian team and/or Russian organisation violates the conditions and objectives of the grant proposal
- the project or certain activities within the project are found to receive (have received) funding support other than coordinated grant from RSF and NSFC
- falsified data in the grant proposal is revealed

---

<sup>97</sup> The letter may be provided in English or Russian.

- the Russian research team and/or Russian organisation violates the requirements of the Russian legislation or conditions of the grant agreement between the Russian research team and/or Russian organisation and Russian Science Foundation.
